

# JOURNAL OF FLOOD ENGINEERING

VOLUME 7

NUMBERS 1-2

JANUARY-DECEMBER 2016

## CONTENT

3  
362

- An Investigation of the Influence of a Retention Dam on Flood Control in a Small Catchment Area in Austria  
*M. Galoie, S. Eslamian & ..... 1-15*  
*A. Motamedi*
- Distributed Flood Simulations On a Small Tropical Watershed with the Trex Model  
*J. Abdullah & ..... 17-37*  
*P. Y. Julien*
- Indigenous Knowledge as a Supportive Tool for Sustainable Development and Utilisation of Rainwater Harvesting Systems  
*S. Okhravi, S. Eslamian ..... 39-50*  
*F. Eslamian & S. Tarkesh Isfahany*
- Generalised Extreme Value Model Estimation of Seasonal and Annual Flood Peaks: Application to Peachtree Creek, Atlanta, Usa  
*Chris O'Neal ..... 51-69*  
*Lynne Seymour & William P. McCormick*
- Role of New Retention Dams for Flood Control in the Karbuna Valley (Istria, Croatia)  
*I. Ljubenkov ..... 71-86*
- A Telemetry and Tele Control System for Local Flood Warning, A Case Study  
*A. Deiminiat & ..... 87-100*  
*S. Eslamian*
- Simulation of Dam Break Flood in a Complex Natural Floodplain Topography  
*Mimi Das Saikia & ..... 101-123*  
*Arup Kumar Sarma*
