

## CONTENTS

1.	ATC enhancement by incorporating FACTS devices for deregulating scenario in present power market ..... <i>Jeslin Drusila Nesamalar J, Bavithra K, Charles Raja S and Venkatesh P</i>	1
2.	Dynamic operation and control schemes for hybrid static synchronous series compensator ..... <i>Raju J, Kowsalya M and Arunachalam M</i>	13
3.	A bottleneck-free bidding zone configuration approach qualification ..... <i>Deep Kiran, Abhyankar A R and Panigrahi B K</i>	23
4.	A systematic approach towards developing prototype of AMI based DSM model for load management ..... <i>Manju Gupta, Sushma Gupta and Tripta Thakur</i>	35
5.	Field computation of efficiency of induction machine working on unbalanced conditions using modified non-intrusive air-gap method ..... <i>Grewal G S and Rajpurohit B S</i>	43
6.	Performance analysis of distribution static compensator for power quality perspective ..... <i>Sanath Saralaya and Manjunatha Sharma K</i>	51
7.	Power quality issues in steel re-rolling mills in india ..... <i>Deepak S Jain, ManasKundu and Mohan V Aware</i>	59
8.	Optimal placement and sizing of active power line conditioners ..... <i>Saranya V and Kavitha D</i>	73
9.	ANSYS-Maxwell based design of high frequency link for grid connection of renewable energy sources using MLI ..... <i>Rekha Agrawal and Shailendra Jain</i>	83
10.	Multiple feedback-control-loops for single-phase full-bridge PWM inverter ..... <i>Jora M Gonda and Londhe Apurva A</i>	91
11.	Optimal sizing and allocation of energy storage in wind power incorporated optimal power flow ..... <i>Ulagammai Meyyappan and Kumudini Devi Raguru Pandu</i>	97
12.	Design and analysis of small wind turbine parameter and output characteristics ..... <i>Satpathy A S, Kastha D and Kishore N K</i>	109
13.	Interval optimization technique for the coordination of hydro units with wind power generation ..... <i>Oshiya Arputharaj and Lakshmi Kaliyappan</i>	119
14.	Closed loop control analysis of half-bridge LLC resonant converter based battery charger ..... <i>Sumanta Kumar Show and Parthiban P</i>	127

15.	Novel load emulation technique for performance evaluation of isolated solar PV system under varying load conditions .....	<i>Vani Vijay, Viswanatha C, Giridhar Kini P and Sudhir Kumar R</i>	133
16.	An integrated multi input DC-DC converter in hybrid energy system .....	<i>Chandra Sekhar B and Sanjay Lakshminarayanan</i>	139
17.	Steady-state DC conductivity of low density polyethylene with deep chemical impurity .....	<i>Upadhyay A K and Reddy C C</i>	145
18.	A study on copper corrosion and its effect on dielectric properties of paper oil insulation of transformers using simulation and laboratory experiments .....	<i>Daisy Flora S and Sundara Rajan J</i>	151
19.	Analysis of particle movement and partial discharge in the winding of power transformer using CFD .....	<i>Vasantha Gowri N, Srikanth P, Shashank V, Sankeerth G and Ramalinga Raju M</i>	159
20.	Electric and magnetic field simulation of polymer nano-composites for electromagnetic shielding effectiveness .....	<i>Kavya M, Sundara Rajan J, Rashmi and Sailaja R R N</i>	165
	Biography of Authors		173
