

## CONTENTS

1.	Dynamic performance of distance relay for series compensated transmission lines using Real Time Digital Simulator (RTDS™)	<i>Boda Anilkumar, Amruthakala A and P S Puttaswamy</i>	423
2.	Synchrophasor-assisted detection and control of emergency voltage instability conditions	<i>Imran Sharieff Md and Ranjana Sodhi</i>	433
3.	Adaptive distance relay scheme for a DG based network using RTDS™	<i>Shashank Shekar M, Amruthakala A, Parthasarathy S S and Prabhakar Karthikeyan S</i>	445
4.	A new approach for placement of firing angle model of TCSC to improve the performance of transmission system	<i>Hema Sekhar A and Lakshmi Devi A</i>	453
5.	Performance evaluation of G3-PLC over distribution transformers in Indian context	<i>Konark Sharma and Lalit Mohan Saini</i>	463
6.	Performance evaluation of distribution network - power quality approach	<i>Surendra Kalambe</i>	473
7.	Maximum annual savings in radial distribution systems using firefly algorithm	<i>Dinakara Prasad Reddy P and Chandra Sekhar B</i>	481
8.	Technological development of on-load tap changing mechanism in power transformer- a review	<i>Savita V Banakar, Muralidhara V and Maheswara Rao N</i>	487
9.	Intelligent control of shunt active filter for power quality improvement using fuzzy logic	<i>Arunesh Kumar Singh, Talish Naseem and Vikas Pratap Singh</i>	497
10.	Simulation and implementation of phase shifted series resonant converter	<i>Jayandiran S, Karpagam R and Elanchezhian P</i>	505
11.	Micro controller programming for PWM control of MOSFET based converters	<i>Vani Vijay, Giridhar Kini P and Sudhir Kumar R</i>	511
12.	Design and development of type-B pulse forming network for generation of low voltage rectangular pulses	<i>Madhu Palati</i>	517
13.	Analysis of short circuit faults in DFIG and PMSG wind farms	<i>Shripad G Desai, Bankar D S and Vishal V Mehtre</i>	523
14.	Fault ride-through capability of permanent magnet synchronous generator based wind energy conversion system	<i>Rajvikram M, Renuga P, Aravind Kumar G and Bavithra K</i>	531

15.	Off-grid electrical power generation and environmental impact with renewable energy in India .....	<i>Bharat Modi and Umesh Kumar Rathod</i>	539
16.	Modeling of hybrid ultra-capacitors for power electronic applications using PSPICE/ ORCAD™ .....	<i>Pradeep Kumar Rao J and Nagamani H N</i>	543
17.	Single-ended resonant inverter for photovoltaic applications .....	<i>Elanchezhian P and Kumar Chinnaiyan V</i>	555
18.	Integration of concentrating solar power in cane-based sugar cogenerating plants- a strategic energy option for India .....	<i>Siddhartha Bhatt M</i>	561
19.	New concept for steam condensation .....	<i>Mallikharjuna Rao T and Rao S S</i>	573
20.	Characteristics of different Indonesian coals blended with a high ash Indian coal .....	<i>Arun Kumar K H, Saravanan V and Shekhar Kumar M</i>	579
21.	A study on the slagging and fouling propensity of imported coals blended with Indian coal .....	<i>Ananda Kumar M G and V Saravanan</i>	591
22.	High temperature erosion resistance characteristics of boiler tube materials of thermal power plant .....	<i>Kumar R K, Raghavendra Naik K, Janardhana M, Kiran K B</i>	603
23.	Condition assessment of generator rotor shaft of 108 MW hydro plant through phased array ultrasonic technique and estimation of remaining life through finite element analysis .....	<i>Kumar R K, Janardhana M, Venkatesh T R, Shekhar Kumar M, Arun Kumar K H</i>	613
24.	CFD modelling of the blended coal combustion in a typical 210 M W Indian boiler .....	<i>Arun Kumar K H, Saravanan V, Kumar R K and Shekhar Kumar M</i>	625
	Biography of Authors		637
