

## CONTENTS

1.	Fuzzy and PID stabilizers for power systems for small signal stability enhancement .....	<i>Noopura S P, Amit Jain and Jayan M V</i>	1
2.	A multi objective optimization of transmission expansion planning using genetic algorithm considering reliability criteria .....	<i>Srinivasulu G, Subramanyam B and Surya Kalavathi M</i>	7
3.	A novel distance estimation technique for single line to ground fault in electric distribution network using smart meter .....	<i>Velhal Geeta Vilas, Avani Pujara, Bakre S M and Muralidhara V</i>	19
4.	Multi-layered feed-forward back propagation neural network approach for solving short-term thermal unit commitment .....	<i>Pavan Kumar V and Kulkarni P S</i>	27
5.	Design and tuning of FACTS stabilizers for dynamic stability enhancement in multimachine power systems .....	<i>Senthil Kumar N</i>	37
6.	A brief review of super-excitation schemes in short-circuit generators .....	<i>Sreeram V, Gopal D H and Ravindra Mohare M R</i>	45
7.	Short time current withstand strength of earth electrodes-experiences with testing .....	<i>Maheswara Rao N, Vasudevamurthy B R, Swaraj Kumar Das and Raghavaiah B V</i>	51
8.	Stability analysis of multi machine system using FACTS and renewable energy source .....	<i>Ravi Babu G and Gowri Manohar T</i>	59
9.	Performance analysis of current control technique with RSV PWM and discrete model predictive control technique for 3-Phase voltage source inverters .....	<i>Lakshmanan S A, Amit Jain and Rajpurohit B S</i>	71
10.	Transient analysis of cyber-attacks on power SCADA using RTDS .....	<i>Abhiram Amaraneni, Mahendra Lagineni, Rajesh Kalluri, .....Senthilkumar R K and Ganga Prasad G L</i>	79
11.	An intelligent power supply utilization system based on microcontroller for renewable energy applications .....	<i>Manish Kumar Ghodki, Akhilesh Swarup and Yash Pal</i>	93
12.	Grid integrated photovoltaic system with active and reactive power control using fuzzy based controller .....	<i>Nilesh Shah and Chudamani R</i>	111
13.	Improved efficiency study of single axis tracking model compared to static photovoltaic system .....	<i>Neeraj Tiwari, Sanjeev Kumar and Vikas Pratap Singh</i>	125
14.	A study of boost converter with solar photovoltaic system for maximum energy efficiency .....	<i>Sudhakar H S, Indira M S, Gujjala B Balaraju and Siddhartha Bhatt M</i>	133

15.	3-D space vector modulation algorithm for multilevel inverters in abc coordinates for solar PV applications .....	<i>Aparna Paulose, Vani Vijay, Reeba S V and Neha Adhikari</i>	139
16.	Design of two-stage soft-switched module inverter for photovoltaic applications .....	<i>Elanchezhian P, Kumar Chinnaiyan V and Sudhir Kumar R</i>	145
17.	Multi input DC- DC converters for hybrid renewable energy systems-an overview .....	<i>Chandrasekhar B, Sanjay Lakshminarayanan and Sudhir Kumar R</i>	155
18.	Optimal sizing of battery storage system by utilizing the reactive power capability in wind based distribution network .....	<i>Sangeetha R S, James Ranjith Kumar R, Amit Jain, Sreejaya P and Jayan M V</i>	161
19.	Wind load assessment on guyed steel tower with three different codes .....	<i>Veerendra Kumar Shukla and Selvaraj M</i>	171
20.	Optimization of ambient energy component in large mixed mode central AC plants .....	<i>Siddhartha Bhatt M</i>	177
21.	Effect of ethanol on the performance and emission characteristics of biodiesel fuelled diesel engine .....	<i>Ashok Kumar K, Kapilan N and Nagaraja K V</i>	189
22.	A case study of high temperature reheater boiler tube failure .....	<i>Arvind Kumar</i>	199
23.	Fly ash cenospheres – A resourceful material for engineering applications .....	<i>Ananda Kumar M G, Shekhar Kumar M, Suryanarayana K, Vynatheya S, ..... Venkatesh T R, Seetharamu S and Jagannath Nayak</i>	207
