

International Journal of Industrial Electronics and Control

Volume 9, Number 1 (2017)

Contents

- Desired Sound Source Localisation Using Advanced Signal Processing Techniques in Multiple Sources** 1-16
D. Lakshmi Srinivas¹, P. Satyanarayana², V.S. Bhagavan³
- Subsystems of Radar and Signal Processing and ST Radar** 17-24
Ronak Vyas, Saahil Sankhe and Kunal Shah
- A Heuristic Approach for Modeling of the Furnace of a Utility Boiler** 25-42
L. Sivakumar^{#1} and P. Rajalakshmy²
- A Fuzzy Based UPFC Model To Improve The Voltage Profile and Stability of Microgrid Integrated System** 43-61
Anantha Krishnan.V¹ and N.Senthil Kumar²
- Answering Closest-Pair Nearest Neighbor Using Voronoi Diagram For Location Dependent Information System In Mobile Environment** 63-75
Mary Magdalene Jane.F and Ilayaraja N
- Adaptive Estimation of Blind Audio Correlation Signal Characteristics using Neural Networks and Complex Pursuit Gradient Method** 77-94
¹Chandika Mohan Babu and ²AzemeeraSharath Naik
