

# Indian Journal of WIRELESS NETWORKS AND COMMUNICATIONS

Volume 6

Number 1

January-June 2016

1. Testing of Database Application Using Agent Based Method 1-10  
• *Jyoti Duhan*
2. Review of Training Evaluation 11-16  
• *Sunita Dahiya & Ajeya Jha*
3. Mixture Classifier for Time Series Mining 17-24  
• *K. Vedavathi, K. Srinivasa Rao and A. Vinaya Babu*
4. Performance Evaluation of Statistical Approaches For Text-Independent Language Identification System 25-30  
• *R. Rajeshwara Rao and A. Prasad*
5. Mobility Management Protocols for Wireless Mobile Networks 31-39  
• *Chandralekha and Prafulla Kumar Behera*
6. Information Security: Encryption and Decryption with Poly Alphabetic Substitution Method 41-44  
• *Navnish Goel, Amitabh Maurya and Babloo Kumar*
7. Comparison of Approaches to Implement Intrusion Detection System 45-48  
• *Sapna S. Kaushik and P.R. Deshmukh*
8. Land Area Estimation through Interpretation of Aerial Images 49-51  
• *Swapan Debbarma and Anupam Jamatia*
9. Neuro Based Approach for Speech Recognition by Using Mel-Frequency Cepstral Coefficients 53-57  
• *R.L.K. Venkateswarlu and R. Vasanthakumari*
10. Design Issues: Duty Cycle Control in Wireless Sensor Networks 59-61  
• *V.K. Sharma and Ravindra Prakash Gupta*
