

Indian Journal of WIRELESS NETWORKS AND COMMUNICATIONS

VOLUME 6

NUMBERS 2

JULY-DECEMBER 2016

Contents

12
258

- A Novel Approach for Dynamic Economic Dispatch with Ramp Rate 63-70**
Constraint using Artificial Immune System
♦ *D.P. Dash, P.K. Chattopadhyay, R.N. Chakraborti, and M. Basu*
- Global Voltage Stability Assessment of an Indian Grid System in Equivalent 71-82**
Mode using OPF Analysis
♦ *Palukuru Nagendra, Sunita Halder Nee Dey, and Subrata Paul*
- Damping of Low Frequency Oscillations in Power Systems with 83-93**
Neuro-Fuzzy UPFC Controller
♦ *Nasser Talebi and Ali Akbarzadeh*
- On-line Optical Detection of Partial Discharges in an Oil Filled High 95-102**
Voltage Power Apparatus
♦ *S. Karmakar, N.K. Roy, P. Kumbhakar*
- A New Power Quality Improvement and Protection Technique 103-109**
Based on Wavelet Transforms
♦ *M. Narendra Kumar, P. Pardhasarathy, and K. Anil Chandra*
- Real and Reactive Power Constrained Optimal Power Flow Solution using 111-119**
Genetic Algorithm with Fitness Scaling in a Multi Bus Power System
♦ *Priyanka Roy and A. Chakrabarti*
- Integral Squared Error and Maximum Stability Margin Criterion Based 121-133**
Decentralised Load-frequency Controllers for a two-area Power System
Interconnected with Elastic and Stiff Tie-lines
♦ *R. Arivoli and I.A. Chidambaram*
