- |                                                                                                                                                                                       |         |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
| 1. Natural and Formal Languages at the Higher Level.....                                                                                                                              | 65-69   |
| <i>Amelec Viloria, Marisabel Luna, Elsa Lucas, Noel Varela, Jenny-Paola Lis-Gutiérrez and Mercedes Gaitán-Angulo</i>                                                                  |         |
| 2. A Numerical Study for the Nonlinear Four Wave Interactions in Deep Waters.....                                                                                                     | 71-78   |
| <i>V. Prabhakar and M. Kamalakkannan</i>                                                                                                                                              |         |
| 3. Optimal Knowledge Extraction System Based on GSA and AANN.....                                                                                                                     | 79-88   |
| <i>S. Jagadeesh Soundappan and R. Sugumar</i>                                                                                                                                         |         |
| 4. Power Transformer Fire and Explosion: Causes and Control.....                                                                                                                      | 89-97   |
| <i>P.R.P. Hoole, Shirley Anak Rufus, Nurul Izzati bt Hashim, Mohd Hafiez Izwan b Saad, Azfar Satari b Abdullah, Al-Khalid Hj Othman, K. Piralaharan, Aravind CV, and S.R.H. Hoole</i> |         |
| 5. Amigo Based PID Control Design for Non-Linear Process.....                                                                                                                         | 99-106  |
| <i>Ashutha K, Eadala Sarath Yadav and Thirunavukkarasu Indiran</i>                                                                                                                    |         |
| 6. Patent Consortia: Balance and Prospects .....                                                                                                                                      | 107-112 |
| <i>Jenny-Paola Lis-Gutiérrez, Mercedes Gaitán-Angulo, Amelec Viloria, Jaime Cifuentes-Rueda and Melissa Lis-Gutiérrez</i>                                                             |         |
| 7. Learning while Exploring with Virtual Reality.....                                                                                                                                 | 113-119 |
| <i>Muhammad Zikri B. Mohamad, Suzana Ahmad, Marina Ismail and Norizan Mat Diah</i>                                                                                                    |         |
| 8. MFCC based Telugu Speech Recognition using SVM Technique .....                                                                                                                     | 121-129 |
| <i>Archeck Praveen Kumar, Neeraj Kumar, Cheruku Sandesh Kumar, Ashwani Kumar Yadav and Abhay Sharma</i>                                                                               |         |
