

International Journal of Wireless Networks and Communications

Volume 14, Number 1 (2022)

Contents

- Diversity and Satisfaction: Analysis of Learners' Satisfaction According to the Online Learning Interaction** 1-10
Ja Mee Kim¹, Ki Name Park² and Yong Kim^{3}*
- Which Type of Coursebook can best be used to Support a CS Courses?** 11-20
Ja Mee Kim¹ and Won Gyu Lee²
- A Study about the Working of Database Transactions, its Consequences and Remedies for Failure** 21-31
G. Sekar¹ and Dr. N.M. Elango²
- Competent Scheduling for Achieving Desirable Quality on Resource Allocation in Grid Networking** 33-47
R. Natchadalingam and Dr. K. Somasundaram
- A Study on Creative Problem Solving Founded on Computational Thinking** 49-61
Jungin Kwon¹ and Seongjin Ahn²
- Data Clustering using Principal Component Analysis and Differential Evolution** 63-74
Rajashree Dash
- A QOS Guaranteed Mobility-Prediction Based Channel Reservation Scheme for Wireless Cellular Networks** 75-85
¹P. Jesu Jayarin and ²J. Visumathi
