

Indian Journal of Engineering & Materials Sciences

<http://www.niscpr.res.in>; <http://nopr.niscpr.res.in>; Impact Factor: 0.615 (JCR 2021)

VOLUME 30

NUMBER 1

February 2023

CODEN : JEMSEW 30 (1) 1-188

ISSN : 0971-4588 (Print); 0975-1017 (Online)

CONTENTS

Review Articles

- Current Status and Way Forward of Microwave Hybrid Heating in India: A Bibliometric Analysis
Vishwajeet Kumar, Joy Prakash Misra, & Kuldeep Kr Saxena 9
- Studies on Lightweight Geopolymer Concrete
Ycransetty Deepthi, Parukutty Sanker Ambily, & Hanchare Sudarsana Rao 21
- Optimization on Manufacturing Processes at Indian Industries Using TOPSIS
Sathir Singh, Vivek Agrawal, Kuldeep Kr Saxena, & Kahtan A Mohammed 32
- Friction Stir Process: A Comprehensive Review on Material and Methodology
Vishal Bhojak, Jinesh Kumar Jain, Kuldeep Kr Saxena, Bharat Singh, & Kahtan A Mohammed 45

Research Articles

- Beneficiation of Clays from Ramgarh-Naudaha Region of Sonbhadra District Uttar Pradesh, Impart Improved Properties for Ceramic Industries
Debiprasad Karanakar, Vartika Singh, Shetru Mallappa Veerabhadrapa, Raghvendra Singh, Lalit Kumar Sharma, & Swapan Kumar Ghosh 65
- Modeling and Control of PV Emulator with Different Controllers and Transient Load Conditions
Simmi Sharma, Dhacraj Joshi 73
- Design of Optimized Koch Based Fractal Patch Antenna for Multiband Wireless Applications
Yadwinder Kumar, Sunil Kumar Sharma, Mandeep Singh, & Gurnohan Singh 80
- Influence of Parameters on Mechanical and Micro-Structural Properties of Tungsten Inert Gas (TIG) Welded Joint of 1 mm Thin Inconel 625 Plates
Saurabh Tripathi, Nehem Tudu, Muyuri Baruah, Raj Ballav, & Shashi Bhushan Prasad 87
- Design and Development of Light Weight Porous Matrix Using Industrial Waste
Vijaya Laxmi, Chaitanya Thakre, Abhishek Bisarya, & Ritesh Vijay 94
- Comparison of Signal Processing Techniques for Prediction of Optimal Process Variables to Yield higher Productivity During Turning on CNC Lathe
Pankaj Gupta, Bhagat Singh, & Yogesh Shrivastava 103
- Fabrication of Green Composites by Waste Coconut Shells as Partial Replacement of Coarse Aggregates in Concrete and Determination of its Acoustic Behaviour
Kishor Kalauni, Deepak Kumar, & S J Pawar 112
- Instability Regions of a Laminated Sandwich Plate with MRE Core Under Parametric Excitation Using Finite Element Method
Hafiz Mayeen, Rajesh Kumar Ojha, & Santhosha Kumar Dwivedy 122
- RF and Crosstalk Characterization of Chip Interconnects Using Finite Element Method
Manjit Kaur, Gurnohan Singh, & Yadwinder Kumar 132

Floor Acceleration Amplification Factor in Yielding of Moment Resisting RC Frame Structures Ravinder Kumar Agrahari, & K. K. Pathak	138
Comparative Experimental Investigations on Novel Joining Technology Based on Microwave Energy to Produce SS2205-SS2205 Joints Virinder Kumar, & Shankar Sehgal	147
Optimisation of Diffusion Welding Parameters in Al-Cu Bimetal for Shaped Charge Application Santosh Ingole, & MJ Rathod	154
Assessment of Radioactivity in Textile Sludge Incorporated Bricks P.V.Premalatha, L. K. Rex, N. Bharathkumar, & A. Cyril Thomas	165
Enhancement of Thermal Insulation and Mechanical Properties of Concrete by Expanded Polystyrene Beads Mini Mathew, Thahira A., & Anitta Jose	172
Microcontroller-Based Low-Cost Seed Metering Module Retrofit on Cultivator Prem Veer Gautam, H. L. Kushwaha, Adarsh Kumar, T. K. Khura & S. K. Sarkar	180
