

# International Journal of Electronics and Communication Engineering

Volume 16, Number 2 (2023)

## Contents

- Image Duplication Copy Move Forgery Detection Using Discrete Cosine Transforms Method** 95-102  
*M. Buvana Ranjani and R. Poovendran*
- Economic Evaluation of Incentive-Based Demand Response Programs Implementation on Congestion Management under Contingency Conditions** 103-125  
*Abdullah Asuhaimi Bin Mohd Zin, Mehdi Moradi, Azhar Bin Khairuddin, Amirreza Naderipour and Mohammad Moradi*
- An Investigation of the Substrate-Integrated Luneburg Lens Antenna with gradient Index and Meta-material Structures** 127-136  
*Deepthi KVBL and Dr. K. Jaya sankar*
- Denoising of MR images using curvelet transform** 137-148  
*Noore Zahra and A.H.Siddiqi*
- Wavelet based segmentation of Liver Tumors from CT Images** 149-167  
*Mr. Deepesh Edwin and Dr. S. Hariharan*
- A Neural Network based Model for Signal Coverage Propagation Loss Prediction in Urban Radio Communication Environment** 169-182  
*Joseph Isabona and Viranjay M. Srivastava*
