

International Journal of Computer and Internet Security

Volume 15, Number 2 (2023)

Contents

- | | |
|--|---------|
| Design of a Distributed System for Effective Resource Utilization
<i>S. Anbarasu and I.R. Praveen Joe</i> | 95-104 |
| An Efficient Topic Summarization Model Based on Refined Ontology Model By Using Labelled LDA
<i>A. Mekala and Dr. C. Chandrasekar</i> | 105-116 |
| Low-Power and Cost Effective Sensor Network for Efficient Water Resource Management practices- A Case Study
<i>Ananda Kumar Subramanian and IlangoParamasivam and Deep Dwivedi</i> | 117-128 |
| Internet of Things: A Vision Through Data Mining, Cloud Computing and Semantic Technologies
<i>Sini Raj P , Y Reethu Sasira, L Revathi, and Su Rubaasri</i> | 129-138 |
| CHOA Diffuser Application in Reverberation Chamber
<i>Eugene Rhee</i> | 139-146 |
| An Efficient Handoff Allocation During Travel By Time Based Algorithm
<i>K. G. Chiranjeevi, R. Latha and S. Saravanakumar</i> | 147-155 |
| Review and Analysis of Image Enhancement Techniques
<i>Harmandeep Kaur Ranota and Prabhpreet Kaur</i> | 157-164 |
| Wormhole Attack Efforts on Manets Challenge on The Mobile
<i>S. Sathish Raja and S. Saravana Kumar</i> | 165-172 |

**Hand Gesture Recognition Method for Human
Machine Interface**
*Sunita Barve, Kritika Dhatavkar, Siddharth Singh,
Vijaykumar Baghele and Ankit Jethwani*

173-178

Target Tracking in Wireless Sensor Network
Preeti Chauhan and Prachi Ahlawat

179-184
