

Advances in Dynamical Systems and Applications

Volume 19, Number 1 (2024)

CONTENTS

- Application of Group Theory in Dynamical System and Design** 1-8
Dr. Hiteshwar Singh and Dhananjay Kumar Mishra
- On a characterization of avariable exponent Sobolevspace $W_1, p(\cdot)(\Omega)$ and an application** 9-27
*Junichi Aramaki**
- Dynamic behavior of the solutions for a system of connected Wilson-Cowan oscillators with delays** 29-45
Chunhua Feng
- A Comparative study of Numerical solutions and Analytic solutions obtained using Adomiandecomposition method for heat transfer over stretching surface with variable heat flux in the presence of a heat source or sink** 47-57
Kanthavel.T and M. Kaliyappan
- Line Flow Based WLS State Estimation using PSO and WIPSO Techniques** 59-72
M. Kalpanadevi and Dr. R. Neela*
- Fuzzy Soft Hyperrings and Fuzzy Soft Hyperideals** 73-89
^aGaneshsree Selvachandran & ^bAbdul Razak Salleh
