

# Indian Journal of Advances in Electrical Engineering

Volume 13, Number 2 (2023)

## Contents

- Circular Array Antenna Synthesis based on Element Spacing** 89-95  
*B T P Madhav, J Sowjanya, V Swathi and P Tanmayee*
- Connection of Two Nodes of A Transportation Network by Two Disjoint Paths** 97-118  
*Ilya Abramovich Golovinskii*
- A Novel Kalman Filter based Channel Estimation Algorithm in OFDM Systems** 119-128  
*Prof. S. Sathish and Dr. V. Palanisamy*
- Multiple Output Switched Mode Power Supply with Regulated and Isolated Output Voltages** 129-138  
*S.Malathi, R.Murali Sachithanantham and J.Jayachandran*
- Design of FPGA Codes for BPN based plasma position control in Aditya Tokamak** 139-146  
*J. Femila Roseline and N.M.Nandhitha*
- Performance Analysis of Silicon and GaAs Single Junction Solar Cell Using PC1D** 147-156  
*Priyanka Dhamija, Preeti Jha and P. Sathya*
- Performance analysis of solar cell antenna (SOLAN) using different material like AgHT-8, AgHT-4 and ITO** 157-166  
*A.Suresh Kumar and S.Sundaravadevelu*
- 40-Gbps PDM-RZ-DPSK Transmission with Wireless Integration** 167-176  
*G. Aarthi, G. Ramachandra Reddy, Ankit Upadhyay and Nikhil Mittal*
