

International Journal of Mobile Communication and Networking

Volume 15, Number 1 (2024)

Contents

- A Conceptual View of Dynamic Protocol for Effective Data Communication** 1-8
T. Vengatesh¹ and Dr. S. Thabasu Kannan²
- An Ant Based Rate Allocation With Scalable Video Coding For Video Streaming In Peer To Peer Networks** 9-24
Dr.N.Velvizhi and Anith Kumar.R, Avinashilingam.N
- Chaos based Encryption Mechanism for Wireless Local Area Network Authentication** 25-36
Sanjay Kumar¹ and D K Shaw²
- Effective Method for Creation of Domain Module Information from Electronic Textbook** 37-52
Satyasheela T.Kadam and Prof. Dr. Devendrasingh Thakore
- Performance Analysis of MANET and VANET based on Throughput Parameter** 53-65
¹Omkar Pattnaik and ²Binod Kumar Pattanayak
- Improved Associativity Based Routing for Multi Hop Networks Using TABU Initialized Genetic Algorithm** 67-84
H. Santhi, N. Jaisankar, Aroshi Handa and Aman Kaul
- Relative Strength Index for Developing Effective Trading Strategies in Constructing Optimal Portfolio** 85-108
Dr. Bhargavi. R, Dr. Srinivas Gumparathi and Anith.R
